CommServe V11 インストール

The image shows two sequential screenshots of the CommVault V11 installation wizard. The left screenshot, labeled 13, is the 'Commcell Administrator Account' setup screen. It features a 'User Name' field with 'Admin' entered, and 'Enter Password', 'Confirm Password', and 'Email Address' fields, all containing masked characters. A blue arrow points from this screen to the right screenshot. The right screenshot, labeled 14, is the 'Installation and configuration completed successfully' screen. It displays the 'End User Console URL' as 'http://mt-cv11-cs/webconsole'. A yellow callout bubble with the text 'インストール完了!!' (Installation completed!!) is positioned above a blue 'Finish' button. The bottom of both screenshots contains a grey navigation bar with a left arrow, the step number and description, and a right arrow.
